

NOVEMBER 2017 EDITION

Message from Cllr Jane Storey

Suffolk Better Broadband November 2017 Update

I was delighted to hear that the County Council received a congratulatory message from the Department for Digital, Culture, Media & Sport, on the completion of contract 1 of the Better Broadband for Suffolk programme. Contract 1 completed deployment in September 2015, and was closed earlier this year. It extended coverage of fibre-based broadband from around 50% of Suffolk premises delivered through commercial deployments to 85% of Suffolk premises, by adding fibre broadband coverage to more than 100,000 premises.

In his letter, William Priest, Interim Chief Executive of Broadband Delivery UK (BDUK) within the Department, recognised “the excellent results achieved upon completing the deployment of its Phase 1 contract with BT”, and thanked Peter Ingram and the Better Broadband for Suffolk team “for their outstanding work in achieving these results”. He noted that, as well as meeting all delivery milestones, the project resulted in a significant underspend, and achieved, and continues to achieve, a large amount of gainshare funding as result of high take-up rates from our residents and businesses (which will be reinvested into our Suffolk programme). Mr Priest reflected that Suffolk’s role, led by Peter Ingram, had supported establishing the original framework contract and the development of the open book ‘milestone to cash’ process which has been commended by Cabinet Office as “an exemplar of best practice within Whitehall”. I would like to join Mr Priest in congratulating our team on their success.

The Better Broadband programme continues under its second contract to increase the number of premises upgraded to superfast broadband in Suffolk. By now, the programme has allowed more than 132,000 additional Suffolk premises to be able to connect to better broadband.

As reported in my previous newsletter, we have extended the contract with Openreach to increase coverage of access to superfast broadband to 98% of all Suffolk premises by the end of 2020. The increased coverage target of 98% has been a significant leap forward; however the County Council remains committed to find solutions to provide high-speed internet access for **all** properties in the county. I continue to lobby Government to find solutions for the final 2%, and I was pleased to have met Matt Hancock MP, Minister of State for Digital, last month to again stress the need for solutions and funding towards achieving 100% superfast broadband coverage in Suffolk.

Increasing numbers of superfast broadband delivered to the county

Each three months, we are committed to providing an update on the areas which have been upgraded to superfast fibre optic broadband since our last bulletin, and those which are planned over the current and next quarter (for this newsletter, until end of March 2018). See the tables overleaf which summarise these. Our website map at www.betterbroadbandsuffolk.com will be updated shortly to reflect these areas.

Find out more about the Better Broadband for Suffolk programme by visiting our [website](#).

For any enquiries contact the Better Broadband for Suffolk team, at broadband@suffolk.gov.uk.

LIST OF AREAS UPGRADED SINCE LAST NEWSLETTER, ACCURATE AS OF 26th OCTOBER 2017
